ASME

Propp II Family Foundation

American Stairs

Smith Family

Wilson Family

Mentors make it work

Jeff Cane

Mark Gross

Joe Pipitone

Bryan Phagan

Jonathan Taylor

Dylan Smith

Lisa Smith

Mike Smith

STUDENT AND PARENT / GUARDIAN AGREEMENT:

1. Team 179, Children of the Swamp is a parent and student organization which receives majority of it's funding from corporate sponsors. However, funding from student membership fees and several fundraising events are important supplements. I pledge to support the Team's interest through payment of membership dues and possible volunteer supervision and / or support of activities during Team meetings and events.
2. Team meetings may be recorded via digital video and still cameras. I agree to allow the Team to utilize this footage for Team promotion and publication materials.
3. Construction and design of Robotic components can be hazardous and all efforts will be made by Team leaders, students, mentors and parents to promote and effectively maintain a safe working environment by following all safety guidelines and general common sense when operating or around machinery. Mishaps, however, can occur through interaction in this environment. In the event of an injury through my child, I grant the present staff member the ability to provide first aid and transport my child to a medical facility if needed per emergency information on file with the school. Additionally, I will not hold Swampthing Robotics, the school or the school district liable for any injuries sustained by my child through program participation.
4. Participation in FIRST Robotics team events is a privilege, not a right. In the event of violation of safety rules or any horseplay, participants may be dismissed from the event or meeting and subject to Team removal. I accept that any such violations by my child may warrant removal from the program.
5. Regular attendance is mandatory. The teams are provided with a limited window of time to conceive projects, test, and debug. Due to the highly specialized role of each team member, regular attendance is mandatory. Failure to attend meetings or behavior which compromises the success of other individuals may warrant removal from the Team activities. As a Team, Swampthing Robotics is subject to rules and regulations of FIRST (For Inspiration of Science and Technology, www.usfirst.org) and the Palm Beach County School district.

1. Further conditions of Team membership and / or rules or guidelines will be communicated via "Take Home" letters or Team newsletter. As a responsible parent, efforts will be made to inquire about Team updates and progress of the child's Team responsibilities. Membership fees and fees for competition trips will be determined based on the team fundraising success and may be offset by individual fundraising success.

I understand and agree to the conditions listed above.
